The services were well attended throughout the entire meeting, when weather conditions would permit. The singing was led by Prof. E. Lunsford and was excellent. The consensus of opinion was that the sermons were the best and most practical ever delivered in Forest City, notwithstanding the fact that Brother Coffman followed himself in a revival meeting in Forest City. There was a great interest manifested all along the line, and in addition to the souls saved, the churches have enjoyed a spiritual uplift.

—Adolph Sauer and wife were here last Tuesday, looking over their farm, occupied by Gooly Crow, west of town, and they were well pleased with the crop prospects on the farm. Mr. and Mrs. Sauer are old residents of this vicinity, and moved away from here about 12 years ago, and now own and live on a good farm about two miles north of Seneca, Kansas, and like that part of the country very much. Mrs. Sauer says wheat averaged from 18 to 40 bushels to the acre, oats were an extra good yield and corn is very good, considering the dry weather and poor season they have had. Grandma Burke is still living with them, and although she is 87 years old, she gets around in good shape.
—The Sunday school convention of Bigelow township opened on last Sunday morning with a union Sunday school, in which a very interesting and instructive session was held. There was a total attendance of 68 and a collection of \$2.30 taken. Many were prevented from attending, by the roads being muddy and too slick for cars to run, due to the rain the evening before. Mrs. Katharine McNaul, the county secretary, not being present, the school then adjourned until afternoon. At 1:30 the congregation was called to order by Brother Notley, the township chairman. The first number was a song by the schools, "Onward, Christian Soldiers." This was followed with a song by the united choirs, "Shine for Jesus Where You Are;" scripture reading, Brother Notley; prayer, Brother Dave Smith; solo, Brother T. J. Bridgman, "Do Something for Others." Then the discussions of the topics of the afternoon were taken up. "Does organization secure the greatest benefit in Sunday school work?" In the absence of Mrs. McNaul, Brother S. W. Skelton opened the discussion, followed by Brother Walden and Brother Jessup. The consensus of opinion was that if organization is essential to public school work, it would be beneficial to Sunday school work. This was followed by a paper on "How to interest the non-attendant and indifferent in Sunday school work," by Mrs. Ethel Osborne, and was discussed by Brother Dave Smith. "How and what can the Sunday school do for temperance?" was discussed by Brother S. W. Skelton, after which Brother L. W. Notley and Brother Dave Smith discussed the Sunday school work from the viewpoint of the superintendent. Officers for the coming year were then elected, with the following results: L. W. Notley, president; Mrs. Ethel Osborne, secretary; Mrs. H. M. Davis, chairman of temperance and missions. Mrs. Ethel Osborne and S. W. Skelton were appointed a committee on class grading and teacher-training, with the intention of working out a plan of organizing graded and teacher-training work for Bigelow. There were some who thought we did not have members sufficient to carry on the graded work, but if we have about 85 members to carry on the graded work in our public schools, why not unite and use the same pupils in a union Sunday school and support one church and one preacher.
Letter to the Public.
According to an agreement with my good friends, Deacon and Tom, when I went West last week, I will tell the business I did for one week. Sold to Jacob Kuhn 960 acres of Colorado land, which is in addition to 880 acres, which he and his sons had bought about a month ago. Also sold a house and lot in St. Joseph. My friend, Vince Crider, bought 160 acres, 5 1/2 miles east of Holyoke, which he rented before he returned from Colorado. After a thorough inspection of the lands around Haxton, Fleming and Holyoke, they decided that the best soil and the best crops, which consist of corn, wheat, cane, kafir corn, millet, alfalfa, beans, potatoes, oats, rye, berries, cherries and apples, they decided the best lands were to be found around Holyoke, also the cheapest land, which lies as smooth as the Missouri River bottom, and I don't think there is a man in Holt county who would doubt the judgment of either of these men, who have lived in Holt county, and are used to good crops and know good land when they see it.
Respectfully yours,
R. L. GREENE.
